

Kynar Static Mixers, Series 400

Koflo manufactures a full range of both threaded and flanged unpigmented Kynar static mixers. Threaded mixers are available from 1/2" - 2" diameter, and are constructed of schedule 80 unpigmented Kynar. These mixers have solid Kynar mixing elements welded to the interior pipe wall. Both 6 element and 12 element configurations are in stock and available for immediate delivery. Flanged mixers have Kynar lined schedule 40 carbon steel housings ranging from 1" - 6" diameter. These mixers have solid Kynar mixing elements welded to the liner. The exterior of all Kynar lined mixers is coated with a DuPont Imron Urethane epoxy to protect against damage from aggressive environments.

Applications

- pH control
- Aggressive chemical blending
- Thermal homogeneity

Options

- Low pressure loss design mixing elements
- Chemical injection instrument tee
- 316L stainless steel housings
- 8" diameter Kynar lined mixers
