## Ductile Iron/316 SS Static Mixers, Series 512

Koflo manufactures a complete line of cement-lined ductile iron static mixers. All ductile iron static mixers utilize an ANSI/AWWA C115 Class 53, cement-lined, flanged housing with 316L stainless steel mixing elements. Each mixer assembly is secured in the housing using a unique retaining bar. This retaining bar will secure the mixer assembly, regardless of installation orientation. The exterior of the mixer is protected with a rust preventative bituminous coating.

### Applications

- Municipal Water Treatment
- pH Control

### Options

- Low pressure design mixing elements
- 316 SS chemical injection ports
- Class 56 heavy wall pipe
- Class 250 flanges (high pressure)
- Non-Clog mixing elements
- High solids epoxy exterior coatings
