

Chlorine Gas Installation

Regulatory Compliance Audit & Safety Review Programme

The Hydramet Regulatory Compliance Audit and Safety Review Programme is based on requirements set out in AS2927:2001 The storage and handling of liquefied chlorine gas. The audit includes, but is not limited to:

- System design
- Location
- Storage & handling
- Operational & personal safety
- Emergency management

Reports include noted deviations from the standards, recommendations and cost estimates to achieve compliance.

Hydramet Qualifications

Hydramet has more than twenty years experience in systems design, equipment selection, control systems, installation, commissioning, servicing and communications with regulatory authorities

- Established site audits
- Design review for new installations
